Feng Shui

Business feng shui helps to create a work environment where there is harmony between the building, its environment and the people who work there.

There are feng shui methods that are designed to unlock the wealth and success potential of a building, and to support the staff, so as to bring out their best potential.

My recommendations are rooted in practicality and building sense as well as classical feng shui principles.

Please get in touch with me to discuss how you would like to transform your business.

Space Clearing

Professional Harmony uses space clearing techniques with the intention of clearing away any stagnant energy or negative imprints from the history of a building, and filling it with fresh, revitalised energy, supporting clarity and success.

I was initially skeptical, but the results speak for themselves. This has been an amazing experience with outstanding results.

Space Clearing

Space clearing is a profound and effective technique that aims to clear the past energy from a home, giving us a fresh start. It seeks to fill our home with vibrant, revitalised energy, infused with our heartfelt intentions, and in doing so raise the quality of our lives.

I create a powerful ceremony, weaving together shamanic techniques, sound healing, geomancy, oracular guidance and ancient rituals, with my gifts as seer and healer.

“

After struggling to move house and losing a buyer, I turned to shaman Sue Holmes to space clear my house to revitalise its energy and attract a new buyer. Within a week I had a buyer who matched my asking price and a week later I'd had my offer accepted on the perfect new home in the perfect location. I'd highly recommend this magic lady to anyone in need of a spiritual spring clean.

Healing Sessions

I have been facilitating healing sessions since 1995, for thousands of people.

I am equipped with a range of holistic healing techniques which I combine with my gifts of clear-seeing, grounded presence, connection with spirit, and a compassionate heart, to create the most beneficial healing session for you.

∞ Shamanic Healing

Shamanism is the oldest form of healing on the planet, dating back to Palaeolithic times, and practised by tribes all around the world, with cultural differences stemming from core methods:

- Extraction
- Power animal & soul retrieval
- Compassionate de-possession
- Curse unravelling

∞ Energy Healing

Energy healing is a hands on holistic approach to health, that seeks to assist the body/mind/spirit in restoring its true nature.

In most sessions, I am guided to use a combination of the healing techniques listed below.

- Infusion & extraction
- Sound healing
- Auric surgery
- Intention alignment
- Organ and spine regeneration
- Relationship cords
- Regression
- Entity release

∞ Colour Light Therapy

Colour light therapy works in a similar way to acupuncture, whereby colour light is directed to points on the body using a pen torch and coloured glass rods instead of needles.

Colour light therapists believe that cells communicate through the frequency of light, and each colour has a particular healing effect on the body, mind, emotions and spirit.

∞ Angelic Reiki

This is a very gentle, yet profound healing technique.

Angelic reiki practitioners believe that they channel healing energy from the angelic kingdom, ascended masters and galactic healers to their clients, with the intention of facilitating the most perfect healing for them at that time.

“

‘I found Sue to be a very enthusiastic, professional, and passionate tour guide... eager to give everyone the best experience possible. She is a lovely person and there was never a time that she was off par - be that on very early morning game drives, or late into the night. She would always share information about the wildlife, ask if folk were ok, include people who were more shy, and take care of anyone who was finding things a bit hard. She also has a great sense of humour and plays excellent music! I would travel anywhere with Sue.’
